

REMOVABLE STEEL BOLLARDS – 4" AND 6"

Removable steel bollards for access control and vehicle impact protection. Available in 4" and 6" diameters, both models use a core-drilled sleeve for secure installation and easy removal when temporary access is required.

Type: Removable Steel Bollard

Brand: Post Guard

Model Number: RB

WHY CHOOSE THIS MODEL?

Heavy-duty protection with flexible, removable installation.

Compatible with multiple site layouts and surface types.

Long-lasting corrosion resistance from powder-coated finish.

Available through SONCO with nationwide stock and distribution support.

USER OPERATION

Installs into the embedded sleeve for quick setup or removal.

Allows temporary access for maintenance or service vehicles.

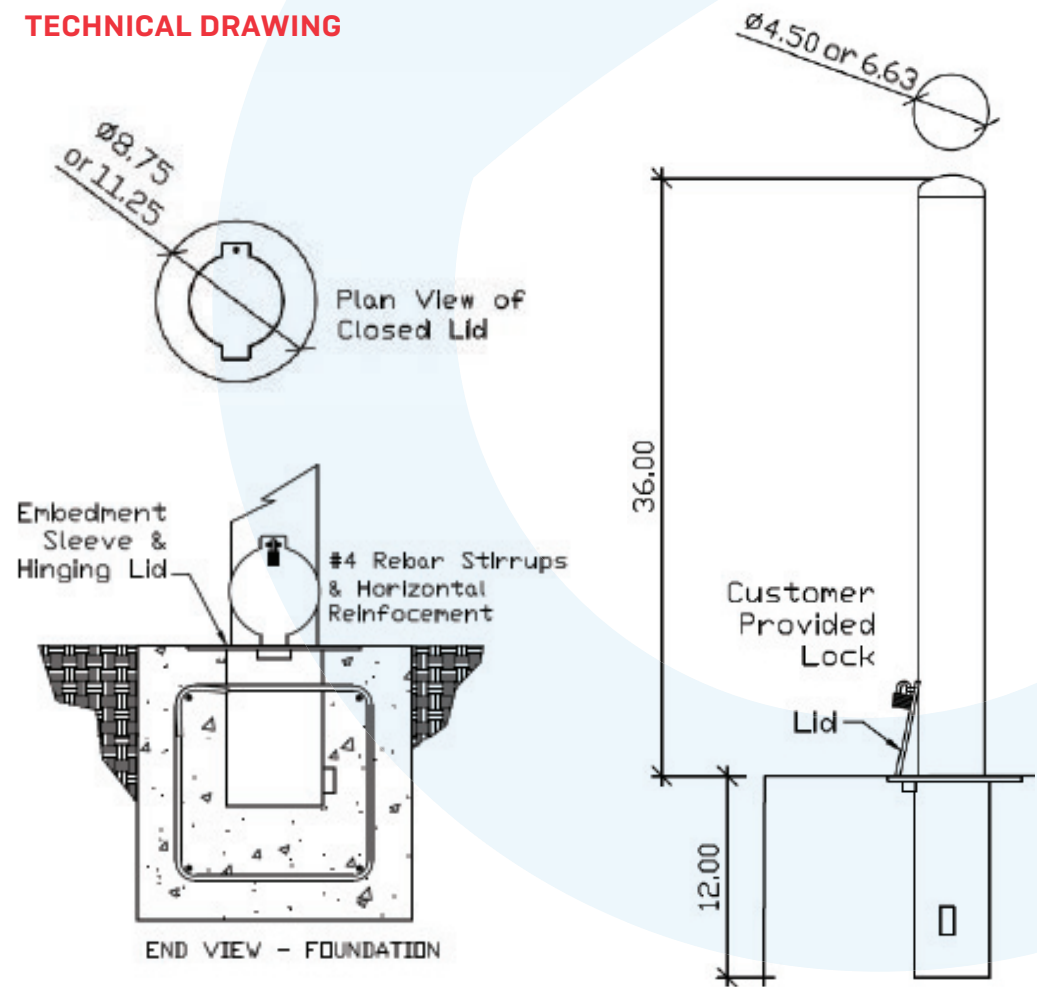

Provides durable impact resistance in high-traffic areas.

MAINTENANCE TIPS

- Keep sleeve opening clear of debris and moisture.
- Inspect coating and welds periodically; repaint if chipped or scratched.
- Check that the bollard fits correctly into the sleeve after use.
