FENCE PANELS

120 fence panels built with 16-gauge steel tubing and a vertical center brace that helps maintain structural integrity and alignment between panels.

METAL FENCE STANDS

121 metal tube stands designed for 1-3/8 inch panel frames. These stands provide stable positioning for fence panels on construction and rental sites.

CLAMPS WITH HARDWARE

120 saddle style clamps with carriage bolts and nuts that securely connect adjacent panels and help create a stronger and more stable fence line.
