6X12 TEMPORARY FENCE PANELS

240 fence panels built with 16-gauge steel tubing and cross-braced to help reduce bending and warping during repeated use.

METAL FENCE STANDS

241 metal tube stands designed for 1-3/8 inch panel frames. These stands provide a stable base for fence panels on jobsites and more.

CLAMPS WITH HARDWARE

240 saddle-style clamps with carriage bolts and nuts that connect adjacent panels and create a stronger and more stable fence line.
