

6' X 10' VERSA CHAIN-LINK TEMPORARY FENCE PANEL

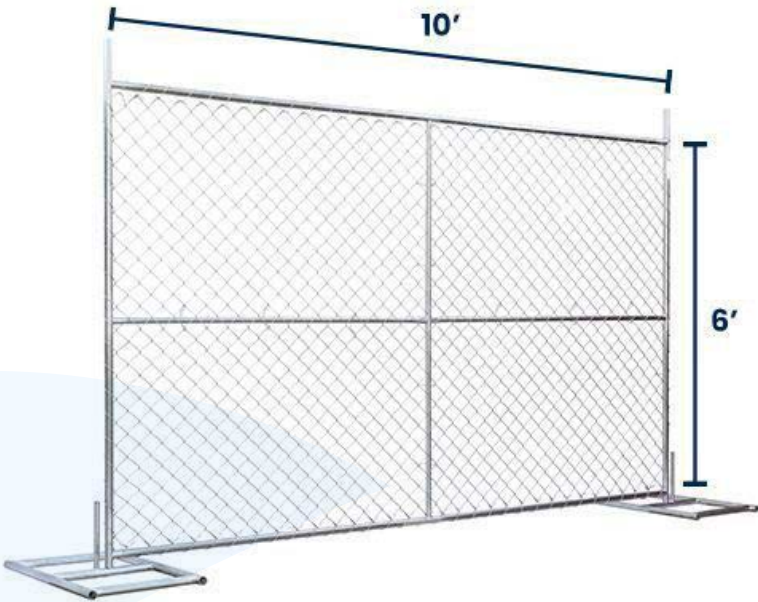

Ideal for high-demand job sites and rental applications that require rugged, long-lasting fencing. The Versa panel is designed for tough environments where security and durability matter most.

Type: Versa Chain-Link Temporary Fence Panel

Brand: SONCO

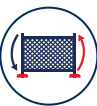

Model Number: SSTP7210

TECHNICAL SPECIFICATIONS

Height	6 ft
Length	10 ft
Frame Material	Steel
Tube Outer Diameter	1-3/8 in
Frame Gauge	16 ga
Mesh Wire Gauge	11.5 ga chain-link
Finish	Pre-galvanized (zinc-treated)
Weight	48 lbs
Application	Temporary fencing / perimeter security
Base Type	Optional (compatible with SONCO fence bases)
Extra Leg	6-inch extra leg to flip the panel for use with anchor blocks without extensions.

WHY CHOOSE THIS MODEL?

Flip Feature
Can be flipped and used upside-down with **Anchor Blocks** for added stability. This eliminates the need for extensions, making the setup faster and more efficient.

Cross-Braced Frame
Strengthens the panel to resist bending, maintaining structural integrity over time.

Fully Laced Mesh
Securely wraps the mesh around the frame to prevent sagging and separation during long-term use.

Pre-Galvanized Steel
Zinc-treated steel resists rust and weathering, extending the service life of the panels.

USER OPERATION

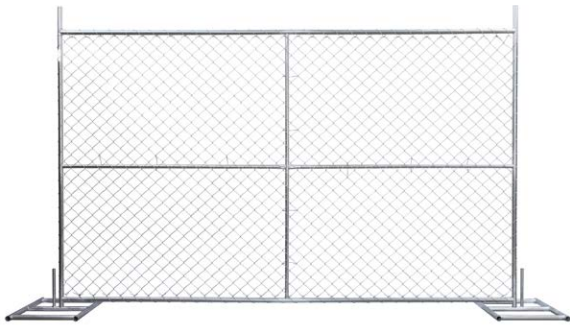

Position panels to form the desired perimeter layout.

Attach panels together using panel clamps.

Use with **SONCO Anchor Blocks** to add weight and prevent movement, especially in windy conditions.

MAINTENANCE TIPS

- Inspect frames and mesh regularly for signs of wear, such as bending or loss of tension.
- Replace damaged clamps or bases promptly to maintain fence stability and safety.
- Store panels properly (vertically or flat) to prevent warping or distortion.

Contact SONCO for availability, bulk pricing, and full perimeter setup guidance.

BUILD YOUR FULL SETUP

Fence Bases

The Anchor Base Family offers options like Anchor Weight and Anchor Block designed for high-stability setups.

Fence Racks

Conveniently hold multiple panels for efficient transport and quick setup.

Privacy Screens

Available in multiple colors and custom options to improve site aesthetics and provide branding opportunities.

Gate Options

Add gate panels or hardware for controlled access points in high-traffic areas.
