

8' X 10' VERSA CHAIN-LINK TEMPORARY FENCE PANEL

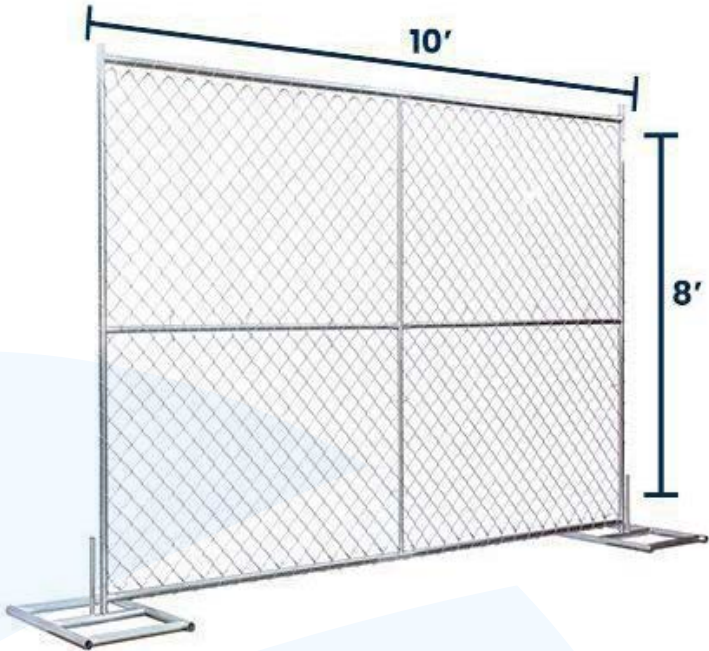

Used for job sites that require more security than standard-height fencing. The 8 ft height helps prevent climbing and provides stronger perimeter control, while the cross-braced frame and fully laced mesh help improve stability during long-term use.

Type: Versa Chain-Link Temporary Fence Panel

Brand: SONCO

Model Number: SSTP9610

TECHNICAL SPECIFICATIONS

Height	8 ft
Length	10 ft
Frame Material	Steel
Tube Outer Diameter	1-3/8 in
Frame Gauge	16 ga
Mesh Wire Gauge	11.5 ga chain-link
Finish	Pre-galvanized zinc coating
Weight	58 lbs
Application	Temporary fencing / perimeter security
Base Type	Sold separately (compatible with SONCO fence bases)

WHY CHOOSE THIS MODEL?

Extra Height Provides More Security
At 8 ft tall, this panel helps prevent climbing and unauthorized access.

Cross-Braced Frame
Helps maintain panel shape over time, even with heavy use.

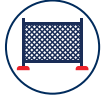

Fully Laced Mesh
Mesh is wrapped around the full frame perimeter, reducing sagging and loosening.

Pre-Galvanized Steel
Resists rust and weather exposure for longer service life.

USER OPERATION

Position panels to form the desired perimeter layout.

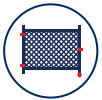

Attach panels together using **panel clamps** for stability.

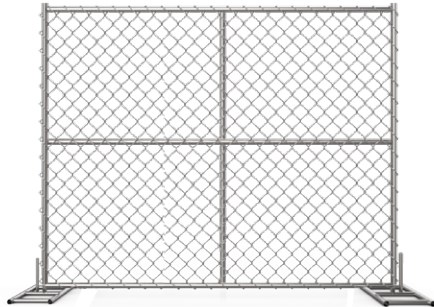

Install panel onto the chosen fence base to keep it upright.

For added stability, pair with **Extenders** and **Anchor Block Fence Bases** to reduce fence movement on active or windy sites.

To create gates or controlled entry points, use panel gate kits when needed.

MAINTENANCE TIPS

- Inspect frames and mesh regularly for bends or tension loss.
- Replace damaged clamps or bases promptly to keep the fence stable.
- Store panels vertically or flat in stacked bundles to prevent warping.

**Contact SONCO for availability, bulk pricing,
and full perimeter setup guidance.**

BUILD YOUR FULL SETUP

Fence Bases

Anchor Base Family with Anchor Weight and Anchor Block options designed for high-stability setups.

Fence Racks

Holds multiple panels for transport, storage, and faster jobsite deployment.

Privacy Screens

Available in multiple colors and custom logo options to promote your brand.

Gate Options

Add gate panels or gate hardware when controlled entry points are required.
